

The SaaS Awards 2024 Winners

Best SaaS Product for Small Business / SMEs

vcita

“vcita’s easy to use interface, cost-effectiveness, and leveraging of the latest technologies like BizAI, the first AI business consultant designed for SMBs, stood out at The SaaS Awards for making them the best SaaS product for small businesses to manage and grow their business. Their understanding of the needs of SMBs, demonstrated through their consideration toward a simple UX, and range of customizations, is to be applauded. Congratulations!”

Nitin Gupta, Lead Judge

Best Enterprise-Level SaaS Product

Advisr

“Advisr has masterfully harnessed AI to transform B2B sales, delivering a platform that not only enhances productivity, but also drives significant market share growth by allowing sales teams to focus on higher-value activity. The SaaS Awards recognizes their pioneering approach to integrating technology with sales processes, setting a new standard in the SaaS landscape.”

Maneet Bansal, Lead Judge

Best SaaS Product with 1,000+ Licensed Users

Vertafore – AMS360

“Vertafore provides InsurTech solutions, and their entry clearly demonstrated that they both listen intently to their user base and continue to provide them value - through innovations in the product itself and through their wider support content. Vertafore's commitment to reinvesting significant sums back into its technology roadmap, to the benefit of its significant user-base, is admirable. What stood out to The SaaS Awards team was the impressive engagement metrics across its user-targeted content, including 'Did you know?' videos, webinars, podcasts, and other media. Congratulations on your awards win!”

Annabelle Whittall, Lead Judge

Highest Customer Satisfaction with a SaaS Product

Sigma Computing – Sigma

“By being able to scale to trillions of records, Sigma’s customers have been able to accelerate their adoption and execution. They offer a great user community with engaged interaction with support teams and use their own products to improve customer service - using dashboards and live data to monitor their CSAT score, and sub-1 minute response times. They recently augmented their offerings with AI Toolkit with forecasting and Copilot. The customer testimonials, overall posture, and the ability for customers to reach them, along with a robust, scalable, and adaptable SaaS product, make them stand out among the nominees this year in this SaaS Awards category. Congratulations!”

Alok Shankar, Lead Judge

Best SaaS Newcomer

HybridHero

“HybridHero’s integrated HR and workspace management platform addresses the needs of increasingly diverse working arrangements, enabling professionals to manage places, people and spaces all in one platform. The platform overcomes the common hybrid/home worker issue of ‘app-fatigue’ by consolidating essential HR and workspace needs into a single easy-to-use platform, resulting in a win-win for users and employers alike. The SaaS Awards team applaud the platform’s ability to future-proof organizations against changes in working practices, as well as being well-positioned to support the current needs of a hybrid working culture. Congratulations, HybridHero!”

Annabelle Whittall, Lead Judge

Bespoke SaaS Solution of the Year

Linarc – Linarc Project Management Software

“Construction project management encompasses an intricate array of complexities at every phase, regardless of scale, location and government regulations. Linarc will profoundly enhance transparency and substantially mitigate risks, delivering great value to the project management process. The SaaS Awards were very impressed by Linarc’s ambition in tackling this complex task. Congratulations!”

Nagendran Manidas, Lead Judge

Best AI-enabled SaaS Solution

Responsive – Responsive Platform

“Responsive has redefined Strategic Response Management with its AI-driven platform, setting a new standard for efficiency and collaboration in handling complex information requests. This transformative solution not only accelerates growth but also significantly enhances the strategic capabilities of organizations, making it a deserving winner of the Best AI Enabled SaaS Award.”

Maneet Bansal, Lead Judge

Best Use of SaaS in a Cloud Ecosystem

Keepit – Keepit Platform

“Keepit stands out as a premier provider of SaaS data protection, offering robust solutions for key applications like Microsoft 365, Salesforce, and Google Workspace. Designed for the cloud, Keepit combines usability, security, and scalability to ensure data is always accessible and protected. With dedicated infrastructure and data stored in physically separate data centers, Keepit mitigates downtime and data loss, providing peace of mind to over 10,000 customers worldwide. This commitment to excellence and innovation is what most impressed our judges at The SaaS Awards. Great work, Keepit!”

Annabelle Whittall, Lead Judge

Most Agile / Responsive SaaS Solution of the Year

Coats Digital – FastReactFabric

“FastReactFabric by Coats Digital exemplifies innovation in the fashion industry, seamlessly integrating technology to enhance fabric efficiency and sustainability. Its impressive impact on reducing waste and costs, coupled with its adaptability, makes it a standout responsive SaaS solution. This platform is not just a tool, but a game-changer for sustainable fashion. Congratulations on winning this SaaS Awards category!”

Maneet Bansal, Lead Judge

Best Data-driven SaaS Product

insightsoftware – Logi Symphony

“Logi Symphony enables users of all skill levels the ability to use data modeling to inform strategic decision making. Its ability to enable businesses to perform on-the-fly data modeling quickly, and integrate complex datasets into existing applications, enriches the scope for users to make more informed data-driven decisions to materially improve business outcomes. Allowing these users to manipulate and analyze data, not just have access to it, through its simple UI is particularly impressive. Congratulations insightsoftware, from The SaaS Awards team!”

Annabelle Whittall, Lead Judge

Best Data Innovation in a SaaS Product

Coalesce.io – Coalesce

"At The SaaS Awards we were impressed with Coalesce's integration with Snowflake to deliver scalable business-ready data. Its highly user friendly GUI for writing data expressions provides a great user experience for data experts. Some impressive case studies too, highlighting the positive impact the service has on data science projects. Congratulations Coalesce from all at The 2024 SaaS Awards."

Rakesh Datta, Lead Judge

Best UX / UI Design in a SaaS Product

Moxo

"Moxo has been awarded "Best UX / UI" in the 2024 SaaS Awards for its exceptional ability to streamline external business management through intuitive digital interaction workspaces. By integrating multiple interactive capabilities such as file requests, digital signatures, and document collaboration, Moxo provides a seamless and efficient user experience for coordinating with customers, vendors, and partners. This comprehensive platform not only enhances operational efficiency but also ensures bank-grade privacy and security, supporting every step of the client lifecycle with clarity and ease. Congratulations to the whole team at Moxo from everyone at The SaaS Awards"

Annabelle Whittall, Lead Judge

Best SaaS for Improved Productivity

AxisCare – AxisCare Home Care Software

“AxisCare’s innovative approach to home care management, combined with its user-centric design and advanced analytics, impressed our judging panel at The SaaS Awards. The platform’s ability to simplify complex tasks, ensure compliance, and provide real-time insights demonstrates a deep understanding of the industry’s needs. AxisCare’s outstanding customer support and commitment to continuous improvement make it a deserving winner.”

Manju Krishnappa, Lead Judge

Best SaaS Product for Web or App Development

OutSystems

“With rapid innovations in AI, we believe that the future of software development is low-code to no code. OutSystems stood out to us at The SaaS Awards for its leadership in low-code platforms offering full-stack development, code extensibility, automated DevOps and built-in privacy and security features. Congratulations, Outsystems!”

Nitin Gupta, Lead Judge

Best Content Management Innovation in a SaaS Product

Looper Insights

"The SaaS Awards are thrilled to recognize Looper Insights as the winner in this category. Their groundbreaking solutions have transformed the industry, offering unparalleled insights and data that significantly enhance customer strategies and ROI. The innovative approach to preventing piracy and ensuring compliance sets a new standard, making Looper Insights a deserving winner."

Manju Krishnappa, Lead Judge

Best SaaS Innovation in the Internet of Things (IoT)

1NCE - The 1NCE OS Software Platform

"The SaaS Awards team thought it incredible to see how 1NCE has designed an IoT connectivity solution that caters to the two critical aspects of minimal power consumption as well as bandwidth usage. Their fixed-cost model combined with ease of global scalability are a mix rarely seen in the IoT space. Great customer feedback, great product in the IoT connectivity space. Congratulations 1NCE!"

Rakesh Datta, Lead Judge

Best SaaS Product for Business Management

ECI Software Solutions – Bolt

“ECI Software Solutions has been a cornerstone for SMBs globally since 1999, offering industry-specific, cloud-based software that enhances visibility, operational efficiency, and profitability. Their dedication to empowering businesses across various sectors, coupled with a proven track record of innovation and customer satisfaction, makes them a deserving recipient of this SaaS Award. ECI’s commitment to excellence is further evidenced by their recognition as a Great Place to Work® and their consistent presence in the Achievers 50 Most Engaged Workplaces®.”

Annabelle Whittall, Lead Judge

Best SaaS Product for Business Accounting or Finance

Vic.ai – Vic.ai Autonomous AP

“What really sets Vic.ai apart is their use of AI and machine learning to get the job done right. The software gets smarter with every transaction it processes, so it doesn’t just save you time, it gets better and more efficient the longer you use it. This innovative use of AI means customers using the software get to reduce manual burden and see ever increasing benefits over time, with many other customers also noting that they benefit from increased free time bundled with great real time analytics. A fantastic achievement in clinching The 2024 SaaS Award in this category!”

Christopher Southall, Lead Judge

Best SaaS Product for Management Accounting and Budgeting

MYOB – MYOB Acumatica

What we really loved about MYOB at The SaaS Awards is how it brings everything you need into one place, whether it's managing cash flow, staying on top of invoices, or handling payroll. You don't need to be a finance whizz to get the hang of it. The software is highly intuitive, meaning customers can spend less time worrying about the numbers and more time focusing on what they do best. Whether as a sole trader or larger company MYOB is a great choice and can scale with business growth with ease. Congratulations, MYOB!"

Christopher Southall, Lead Judge

Best SaaS Product for CSR, Sustainability and ESG

Coats Digital - FastReactFabric

"Coats Digital's FastReactFabric has earned this award for its pivotal role in driving the digital transformation of the fashion industry. By offering superior, connected SaaS solutions, Coats Digital provides real-time data insights that enhance efficiency, transparency, and sustainable practices across the global fashion supply chain. Trusted by over 3,000 factories worldwide, their innovative platform supports design, development, and production, delivering significant ROI and enabling robust, adaptable business processes. Congratulations from everyone at The SaaS Awards."

Annabelle Whittall, Lead Judge

Best SaaS Product for IT Management

BitTitan – MigrationWiz

“BitTitan’s MigrationWiz is a standout solution in the cloud services industry, offering a comprehensive, automated approach to data and workload migration across various cloud platforms. Its platform-agnostic design, user-friendly interface, and advanced features like real-time monitoring and scheduling make it an invaluable tool for businesses undergoing digital transformation. By minimizing disruptions and reducing the complexity of cloud migrations, MigrationWiz empowers organizations to seamlessly transition to the cloud, making BitTitan a deserving recipient of this 2024 SaaS Award.”

Annabelle Whittall, Lead Judge

Best SaaS Product for Business Intelligence or Analytics

CADDi – CADDi Drawer

“CADDi Drawer is an excellent tool for managing and organizing CAD drawings. The SaaS Awards panel really liked to see innovative use of AI in the areas of CAD we are yet to see in other software products. Its intuitive interface and powerful search functions make navigation and file retrieval effortless. The software’s compatibility with various CAD systems and its customization options are particularly valuable, allowing users to tailor it to their needs. CADDi Drawer excels in leveraging AI and providing a user-friendly, flexible solution for efficient CAD management.”

Christopher Southall, Lead Judge

Best SaaS Product for Project Management, Workflow

Automation or PLM

GFT Technologies – Engenion

“GFT Technologies has transformed from a service provider to an innovator, leveraging decades of expertise in digital transformation to develop its own IP and scalable software products. With a global team of over 10,000, GFT’s transition to an asset-driven model is exemplified by the launch of Engenion, a revolutionary SaaS-based Project Portfolio Management tool for automotive manufacturers. This strategic shift enables GFT to deliver cutting-edge solutions in financial services, insurance, and manufacturing. Congratulations on your win, from everyone at The SaaS Awards.”

Annabelle Whittall, Lead Judge

Best SaaS Product for Engineering Management, PLM or CAD

CADDi – CADDi Drawer

“CADDi Drawer stands out as a revolutionary solution in the manufacturing sector, transforming drawing management by converting cumbersome drawing libraries into easily searchable digital assets. Leveraging proprietary image analysis algorithms, CADDi Drawer enhances efficiency for procurement professionals, fabricators, and engineers by enabling faster and more accurate drawing searches. By addressing critical challenges such as knowledge drain and pricing inconsistencies, CADDi Drawer not only streamlines operations but also drives cost reductions and operational efficiencies, making it a deserving recipient of this SaaS Award.”

Annabelle Whittall, Lead Judge

Best SaaS Product for ERP / MRP

SYSPRO – SYSPRO Cloud ERP

“SYSPRO Cloud ERP is a robust and versatile solution tailored for manufacturers and distributors, offering a comprehensive platform that manages everything from inventory control to production planning with remarkable efficiency. One of the standout features of SYSPRO Cloud ERP to The SaaS Awards team is its impressive level of customization. Moreover, the platform’s real-time data and analytics capabilities are highly regarded, providing valuable insights that enable more informed decision-making. SYSPRO Cloud ERP is an ideal choice for businesses looking to optimize their operations and enhance productivity with a flexible and powerful cloud-based ERP solution. Congratulations!”

Christopher Southall, Lead Judge

Best SaaS Product for Product Analytics

Conative AI

“Conative AI unites two commonly disparate functions within eCommerce businesses – inventory and marketing – through its product analysis and demand forecasting platform. Its ability to incorporate various product variables, such as seasonality, perishability (or indeed evergreen-ness) to enable smarter inventory and marketing planning is crucial in allowing these organizations to make informed decisions that will directly positively impact key metrics like overstock costs and revenue-by-product. Its AI model results in these insights to be queried, delivered, and actioned in record-time, giving their customers the edge in an increasingly competitive eCommerce landscape. Congratulations Conative AI, from all at The SaaS Awards!”

Annabelle Whittall, Lead Judge

Best SaaS Product for Communication, Collaboration or Conferencing

WorkWave – Communication Center

“WorkWave’s Communication Center is a game-changer for field-service providers, enhancing customer satisfaction and retention by streamlining communication across SMS, email and phone. Integrated with WorkWave’s leading CRM, it ensures all interactions are stored in one place, enabling seamless transitions from inquiry to resolution. By addressing communication lapses that lead to missed opportunities, WorkWave’s Communication Center helps businesses maintain strong customer relationships and drive growth, making it a deserving recipient of a 2024 SaaS Award.”

Annabelle Whittall, Lead Judge

Best SaaS Product for Health & Safety or Risk Management

VivoAquatics – VivoPoint

“VivoAquatics is transforming aquatic management with its cloud-based SaaS platform, VivoPoint, which provides property owners and managers with advanced technology and analytics for effective water management. By leveraging smart water usage and leak detection, VivoAquatics helps clients reduce costs, save water, and meet government standards, all while enhancing facility experiences. Their proprietary Water Safety Score and CDC-certified platform set the industry standard, which is why our judging panel at The SaaS Awards have chosen them for this win. Well done, VivoAquatics!”

Annabelle Whittall, Lead Judge

Best Security Innovation in a SaaS Product (B2B – Enterprise)

Pindrop Security Inc. – Pindrop Pulse

“Just as we have seen innovations in audio deepfakes with AI tools becoming more widespread and easier to use, it is fantastic to see innovation in business tools to combat them. At The SaaS Awards we were especially impressed to see how Pindrop Pulse was used to identify and combat deepfakes of high-profile individuals earlier this year. Keep up the great work Pindrop and congratulations on your win!”

Jason Ford, Lead Judge

Best Security Innovation in a SaaS Product (B2B – Small Business / SME)

Blumira – Blumira SIEM + XDR

“The ease of deployment and manageability of Blumira SIEM as a cloud service is impressive, allowing organizations that would normally find a SIEM inaccessible to greatly increase their cloud security. Their offer of a free trial is particularly welcome to smaller businesses with less budget to burn on finding the right solution for them. From all at The SaaS Awards, congratulations on your win this year!”

Jason Ford, Lead Judge

Best SaaS Product for PR, Brand Management or Stakeholder

Engagement

rankingCoach GmbH - rankingCoach AI-powered Digital Marketing App

“Congratulations rankingCoach on your SaaS Awards win! Through utilization of AI technology, rankingCoach is giving SMBs access to SEO data and engagement that is typically for larger businesses. These SEO insights and skills are integral for businesses to build their online presence. Granting that access to SMBs puts them on a more level playing field and helps them reach new consumers as well as engage better with existing ones.”

Christopher Bennett, Lead Judge

Best SaaS Product for Customer Services / CRM

Talkdesk

“Talkdesk’s CX Cloud has managed to strike that balance between democratizing access to advanced technologies (including AI) and being able to deliver laser-focused industry-specific solutions for financial service, retail, healthcare, and others. Talkdesk’s new Gen-AI features opens the door to more creative CX approaches, offering new ways for customers to be delighted when they need assistance. A huge well done from all at The SaaS Awards!”

Matthew Gregory, Lead Judge

Best SaaS Product for Sales & Marketing

ClickFunnels

“ClickFunnels is revolutionizing the marketing capabilities of SMBs by giving them the data and platforms they need to grow their businesses and engage with consumers. The provision of templates as a springboard for supporting organizations to configure their own funnels is particularly useful for an SMB. Removing these critical barriers can unleash this untapped market and help willing entrepreneurs find success.

Congratulations ClickFunnels from all at The SaaS Awards!”

Christopher Bennett, Lead Judge

Best SaaS Product for Digital Marketing

Sojern – Sojern Travel Marketing Platform

“Congratulations to Sojern! Consumers are increasingly looking at the full experience in shopping and this is especially true in travel. Sojern is ahead of the curve by capturing consumers at every step of their consumer experience rather than just through the booking process. The ability to message on multiple channels as well as working at a destination, property, and individual guest level within one SaaS platform, highlights how complete Sojern is at aiding the travel consumer. Well done from all at The SaaS Awards.”

Christopher Bennett, Lead Judge

Best SaaS Product for Email Marketing

Brevo

“Brevo offers a wide range of email marketing capabilities and provides data insights that allow businesses of any size to learn and connect with their customer base more effectively and more personally. Brevo stood out to The SaaS Awards team for humanizing consumer interactions by offering the ability to combine the email marketing platform with other communication channels, and using AI to adjust facets such as tone of voice, and send time. Congratulations Brevo!”

Christopher Bennett, Lead Judge

Best SaaS Product for Loyalty and Retention

Ordergroove

“Ordergroove’s platform enables retailers to take the step into offering subscriptions to increase customer loyalty and encourage retention. Ordergroove’s data insights are key in enabling retailers to optimize their subscription experience for customers, increasing the likelihood of retention through offering creative alternatives to common abandonment problems such as overstocking. Turning one-time transactions into regular purchases is the name of the game in retention, and the results Ordergroove’s customers have seen are testament to the strength of their approach. Congratulations Ordergroove from everyone on the SaaS Awards team!”

Matthew Gregory, Lead Judge

Best SaaS Product for Nonprofits or Education

Levitate

“The SaaS Awards are delighted to present Levitate with this award for its groundbreaking “Happiness Platform” that fosters genuine connections between nonprofits and their communities. By blending human expertise with advanced AI, Levitate streamlines marketing and outreach efforts, driving engagement and donations through authentic communication. This innovative platform is a vital tool for nonprofits, offering a comprehensive suite of features designed to increase happiness, engagement, and efficiency in achieving their missions.”

Annabelle Whittall, Lead Judge

Best SaaS Product for eLearning

BrainStorm

“At The SaaS Awards our panel were impressed with BrainStorm’s fantastic use of cloud services to deploy high impact and efficient learning. The ability for admins to create their own flows of learning assets, that branch according to the end-user’s progress or behavior, is particularly intuitive. As organizations shift towards remote working, solutions such as this enable businesses to ensure their employees are highly skilled without prohibitive costs. Many congratulations on your award win!”

Jason Ford, Lead Judge

Best SaaS Product for Learning Management or Training

Lexipol – Lexipol Learning Academies

“Providing vital education and ensuring compliance in one part of the public sector would be difficult enough but Lexipol spans multiple different sectors seamlessly. The SaaS Awards panel were impressed at Lexipol’s additional focus on offering content promoting wellbeing for its users – an area often overlooked in favor of more traditional competency-based training content. The fact that this is also a cost-effective way of getting critical knowledge across vital public services provides a win/win for both these vital service providers, and the general public as a whole. A well-deserved 2024 SaaS Awards win!”

Jason Ford, Lead Judge

Best SaaS Product for HR

BambooHR

“BambooHR clinches this SaaS Award for the second year running. It’s still a great HR platform and a breath of fresh air for HR teams, offering a simple, user-friendly platform that handles all the essentials - employee data, onboarding, time tracking, and more - all in one place. Users love how easy it is to use, making every day HR tasks a breeze and freeing up time to focus on what really matters: the people. The automated workflows and reminders are a big hit, keeping things running smoothly without the usual headaches. Congratulations, BambooHR!”

Christopher Southall, Lead Judge

Best SaaS Product for Recruitment

Phenom – Phenom Hiring Intelligence

“What really stands out with Phenom Hiring Intelligence is how they are leveraging AI to match candidates to jobs with great ease and efficiency, as well providing customers with excellent insights in hiring trends and candidate engagement. This greatly helps companies reduce the burden of sorting through CV’s manually, reducing lead times and providing more time to connect to the top talent. Combine that with the integration into pre-existing HR systems that many customers say is a breeze. Great work and congratulations from all at The SaaS Awards!”

Christopher Southall, Lead Judge

Best SaaS Product for eCommerce / eShops

commercetools - commercetools Composable Commerce

“The retail/eCommerce landscape is becoming increasingly unpredictable, with operators in this sector needing to be able to adapt extremely quickly - or be left behind. commercetools is a leader in the field of composable commerce, and at The SaaS Awards we were impressed by the speed at which those using their platform were able to influence a huge range of metrics - from significant AOV increases to reductions in operating costs, to name only two. In today’s retail landscape, agility is key, and commercetools delivers in this area. Congratulations!”

Matthew Gregory, Lead Judge

Best SaaS Product for Shipping, Inventory or Vehicle Logistics

Onfleet

“The SaaS Awards team were impressed by Onfleet’s innovative last mile delivery management platform that spans diverse industries including couriers, food and beverage, retail, eCommerce, and more. By providing real-time data analytics and powerful reporting, Onfleet enables businesses to achieve cost reduction, efficiency, and sustainability, especially during economic volatility. Trusted by thousands of companies, Onfleet’s comprehensive and user-friendly solution ensures superior delivery experiences while maximizing operational efficiencies.”

Annabelle Whittall, Lead Judge

Best SaaS Product for Supply Chain / Warehouse Management

Blue Yonder - Warehouse Execution System

“Blue Yonder, a global leader in digital supply chain transformation, empowers over 3,000 world-leading companies with its AI-embedded, interoperable solutions. Their unified platform and data cloud enable real-time collaboration across functions, fostering agile decision-making, improved customer satisfaction, and sustainable supply chains. With a culture of innovation and inclusivity, Blue Yonder’s commitment to excellence and transformative impact makes them a deserving recipient of a 2024 SaaS Award.”

Annabelle Whittall, Lead Judge

Best SaaS Product for Financial Services

InvoiceCloud

“InvoiceCloud has been a major player in the world of Financial Services for some time and for some very good reasons. It’s got a clean, intuitive interface, and best in class automation features, and seamless integration with other corporate systems. InvoiceCloud gets rave reviews from customers and industry experts alike. As such a deserved winner for the SaaS Awards Financial service category. Congratulations, InvoiceCloud!”

Christopher Southall, Lead Judge

Best SaaS Product for Healthcare

AlayaCare

“AlayaCare is a trailblazer in the home and residential care sector, offering an end-to-end SaaS solution that empowers care providers across North America and ANZ to efficiently manage operations, scheduling, and patient information. Their commitment to innovation, demonstrated by a \$50 million annual investment in R&D, focuses on advanced technologies like AI and LLMs to address critical industry challenges such as workforce shortages and retention. AlayaCare’s cutting-edge tools, including their employee churn and retention dashboard and Visit Optimizer, make them a deserving recipient of this SaaS Award for their dedication to improving home care services.”

Annabelle Whittall, Lead Judge

Best SaaS Product for Law and Legal Services

LEAP Legal Software

“LEAP Legal’s practice management software is a comprehensive, cloud-based solution that integrates case management, document automation, legal accounting, billing, and online payments, providing law firms with a significant competitive edge. By automating matter creation, document production, and payment processing, LEAP reduces administrative tasks and manual errors, while ensuring compliance with trust and office accounting standards. We at The SaaS Awards were most impressed by LEAP’s innovative features, such as the Microsoft-certified Power BI connector and WealthCounsel integration, along with the robust support and training programs that they offer.”

Annabelle Whittall, Lead Judge

Best SaaS Product for the Construction Industry

Bluebeam

“Bluebeam stands out as the go-to software solution for AEC professionals, offering unparalleled flexibility for teams to collaborate from anywhere through design, build, and handover phases. With its flagship desktop product, Revu, the collaborative Studio environment, and Bluebeam Cloud for web and mobile access, Bluebeam ensures seamless project collaboration and efficient document management. Its advanced PDF markup, real-time collaboration, and robust support make Bluebeam a deserving recipient of this SaaS Award, empowering construction projects with innovative and user-friendly tools.”

Annabelle Whittall, Lead Judge

Best SaaS Product for Real Estate / Property Management

London Computer Systems – Rent Manager

“Rent Manager® has been a cornerstone in the property management industry since 1988, offering a comprehensive software solution that centralizes data and streamlines daily operations for over 10,000 property management companies. With its powerful property management database, complete accounting and reporting resources, intuitive marketing and mobile tools, and an open API for unparalleled customization, Rent Manager stands out as an industry leader. Its continuous innovation and user-focused design wowed our SaaS Awards judging panel. Congratulations, Rent Manager!”

Annabelle Whittall, Lead Judge

Best SaaS Product for Energy and Utilities

Buzz Solutions

“Buzz Solutions is revolutionizing the utility sector with its AI-powered software analytics platform, PowerAI, designed for visual infrastructure inspections. By automating and digitizing inspection workflows, Buzz helps utility companies reduce the risk of wildfires, forced shutdowns, and power outages, ensuring timely maintenance and infrastructure reliability. With a focus on AI accuracy and efficiency, Buzz Solutions provides a peace of mind and risk mitigation which really impressed our judges at The SaaS Awards.”

Annabelle Whittall, Lead Judge

Best SaaS Product for Catering and Hospitality

Culinary Digital – CulinarySuite

“Culinary Digital Inc. stands out as a leader in the food-tech industry, offering the CulinarySuite platform that has revolutionized foodservice operations for over 20 years. Their HIPAA-compliant, USDA integrated, cloud-hosted ERP software empowers food management companies to optimize operations, reduce costs, and deliver nutritious, safe, and enjoyable meals across various sectors, including healthcare, education, and government. Culinary Digital’s commitment to innovation, partner-first culture, and best-fit engagement model really impressed our SaaS Awards judging team.”

Annabelle Whittall, Lead Judge

Best SaaS Product for Ticketing or Event Management

Kaizen Ticketing

“Kaizen Ticketing are revolutionizing ticketing operations across the UK’s football league system with their innovative, cost-effective platform. By enabling clubs to manage ticket sales 24/7, Kaizen empowers them to improve operational efficiency, forecast attendances accurately, and enhance financial stability. Trusted by 130 clubs, Kaizen’s pioneering software has transformed the ticketing landscape, supporting clubs through economic challenges and driving sustainable growth in the industry.

Congratulations, from everyone at The SaaS Awards!”

Annabelle Whittall, Lead Judge

Best SaaS Product for Media & Publishing

Epom – Epom DSP

“Epom’s commitment to democratizing programmatic advertising - enabling agencies and advertisers of any size to set up campaigns quickly and easily - is what stood out to us at The SaaS Awards. The guidance given by Epom during the campaign creation process is a real help to organizations that need to ensure they’re getting the biggest bang for their buck, particularly when under tight budget constraints. Epom clearly understands the importance of great UX in successful SaaS design. Well done Epom!”

Matthew Gregory, Lead Judge
